Jim Savage
Bronze Memorials
475 Furnace Street, Suite #4
Marshfield, MA 02050

Dear Jim,

Washington Patriot Construction (WA Patriot) would like to recognize Bronze Memorial's contributions on the Muckleshoot Indian Tribe Veteran's Memorial Plaza and Park project.

The Veteran's Memorial Plaza and Park provides a beautiful and peaceful place to remember the sacrifice that veterans and their families have made. The park design incorporates multiple specialties to provide cultural and military significance to its architectural features. With a large push at the end, we successfully opened the park with a ribbon cutting ceremony on the 100th Anniversary of Veteran's Day. We could not have achieved this meaningful milestone without the support of you and your team.

Please accept our appreciation and recognition of your team's contribution to the success of this project, and for performing your scope of work with exceptional quality, expertise, and safety. We would like to specifically thank you for providing high quality bronze plaques and seals. We appreciate you working with our team to overnight ship the materials as needed to meet our deadline. These bronze pieces are key features to the park that will be admired for years to come. We look forward to a continued relationship and successful partnering with you on future projects.

Congratulations on a job well done! As a team, we were able to provide the Muckleshoot Indian Tribe with a beautiful new Veteran's Memorial Plaza and Park.

Sincerely,

Mickey Traugutt
President

Kayla Fillion
Project Manager

Rory Godinez
Superintendent

Amanda Kingtalik
